What We Offer

ParentingU offer a wide range of support to families whose children are subject of a Child in Need, Child Protection Plan and PLO. Additional services are also available for families on Interim Care Order, Supervision Order. We can offer our services face to face subject to Covid restrictions and online. We work in line with Local Authority Policy and Procedures.

We have bespoke tailored programmes. These include:

- Parenting skills workshops or support within homes
- Domestic violence-abuse workshops group or individual
- Family and individual coaching
- Parent-child building relationship or Family therapy
- Counselling, Advocacy and Mediation

"We feel that the parents grew in confidence and self-belief after attending the Family Links Parenting Programme. Parents were more able and willing to communicate with staff and discuss issues regarding their child. Parenting programmes offer so much to the whole school community and we see the great need in our school so hope to continue this valuable work"

Why Choose Us

We have a team of professionals from BME backgrounds. We allocate a team of professionals who work together when undertaking a case. Provide timely intervention that would support and educate families in areas identified by the Local Authorities.

Our team of professionals will support and guide families on how to build and strengthen relationships and work with multi-agencies.

We are the only specialist service in the UK that supports families from diverse communities in their home language!

EVERY FAMILY MATTERS STRENGTHENING RELATIONSHIPS

Do you need early intervention? Are the children at risk of a family breakdown? Struggling to find a service that can meet their cultural, religious, and linguistic needs?

Look no further we provides a range of support and services!

Objectives

1. Improve knowledge and better communication long-term
2. Protect children from further harm, neglect, risks and abuse
3. Reduce the needs for statutory and voluntary services to be involved

Our Aims

- Increase emotional health and mental well-being
- Mitigate risk factors and increase healthy interactions and environments
- Provide direction and strategies on challenging behavior, and additional needs and reasons for behavior
- Develop awareness of child development, and milestones and understand changes from early years to adolescents
- Acquire knowledge on parenting styles, latest research on neuroscience, ACEs' and prevent further problems from developing.
- Equipping them with tools and strategies and building new ways of working with their child/ren

Referral Pathway

In order to provide support to families and children. We would need our referral forms to be completed.

Once commissioned we will do an initial assessment to ascertain further needs.

We will offer a scheme of work and support plans, outlining work to be undertaken with the family.

We will provide a professional report in time for Child Protections, Case Conferences and Court.

Please enquire with service admin (admin@parentingu.co.uk) for costing packages.
